Gameplay

The gameplay requires the player to collect keys to progress through areas in the game. Walking into a key will add it to the player's inventory. Currently picking the bus pass item up at the end of the last area will result in you winning the game, however, we intend to change this so that the player wins after they beat the final boss of the game. While progressing through the game your path will be blocked by hordes of Zombies. Clicking on these zombies while they are in range will knock them away and do damage to them. Don't let them get too close or they will decrease your health which can be found in the top left. power-ups can be used to your advantage if zombies become too big a threat. If you walk into a power-up you will activate it. There are currently three available. The health power-up heals half of your health bar. The speed power-up briefly increases player speed. The shield power-up makes the player invincible for a short time.
